Subject:

When will the tROM Chromium-6 investigation be completed?

November 2018

- **enclosures**

date

Dear «aanhefbrief» «tussenvoegselbrief» «achternaam»,

The Tilburg Chromium-6 Committee was given your name by the municipality of Tilburg. In the past, you have worked at tROM. The National Institute for Public Health and the Environment (RIVM) is investigating what happened at tROM between 2004 and 2012. The investigation is almost complete. On **31 January 2019**, the RIVM will announce the results of the investigation. The committee will then give its recommendations to the municipality of Tilburg.

Why is the investigation taking longer?

The RIVM investigation is taking longer than expected. It has chosen to apply a new investigation method. This will help researchers to determine the danger of exposure to Chromium-6 at tROM more effectively. They need to discuss this with other scientists, which takes time. This is why the committee is receiving the report later.

A meeting is being held on 31 January

We very much regret that you are having to wait longer for answers. But the date is now known. On 31 January 2019, we will tell you about the results of the investigation. In January, you will be sent the invitation for the meeting, with details of the time and location.

If you have any questions, please contact the Tilburg Chromium-6 information and contact point. Tel.: +31 (0)6 2044 8194 or send an email to tilburg-chroom6@caop.nl.

Yours sincerely,

P.A.C.M. van der Velden,
Chairman, Tilburg Chromium-6 Independent Investigation Committee
